

## Commercial Pesticide Applicator Recertification Programs

June 22, 2006

The following programs are available for recertification credit hours for commercial pesticide applicators. Additional programs will be listed on the web site given above when they are received by KDA. All applicators must meet the new recertification credit hour requirements and accumulate the appropriate number of credit hours per category or subcategory. Please call KDA if you have any questions on these new requirements.

**Be sure to attend approved training and send in your KDA renewal application & fees to KDA by December 31<sup>st</sup>** of the year your certification expires or you will have to retest to become certified in the following year. Program sponsors charge attendance fees which do not include the recertification renewal fee of \$50 per category that is paid to the Kansas Department of Agriculture.

**Bring your certification number - It is your responsibility to verify the date, location, credit hours & space with the listed sponsors. The same course may not be repeated in the same year for credit.**
